

Profile

Seasoned Electronic Warfare expertise for industry, public sector agencies and all levels of government. Our reputation has formed relationships with key forces in the defense EW community

- On-site expertise for proposals, red teaming, CONOPs/CONEMP, tactics development, requirements derivation and requirements translation to systems engineering
- Also available for teaming and joint ventures filling proposal resume gaps with program management support or technical oversight. Rare joint service AEA credibility adds depth to any team. Certifications by VA and SBA strengthen the contract award equation

Recent Experience

- Undersecretary of Defense (UOSD PA&E) Joint Airborne Electronic Attack Analysis (2005). UOSD AT&L 2004 Electronic Warfare roadmap and architecture development
- Network Centric Operations systems engineering task for the USN EA-18G Program Office (2004). Quality Functional Deployment (QFD) matrix development linking national strategy to task for emerging EW missions (2005). Augmented EA-18G prime contractor QFD effort
- HQ USAF Requirements Initial AEA Warfighting Capabilities Study (B-52 and MALD-Jammer). CONOPs declared USAF-wide standard by Aeronautical Systems Center sponsor
- USN Tactics Development Non-Kinetic Fires TACMEMO (2005). Joint USAF/USN Communications Electronic Attack JTTP 3-1, Volume 13 (2003)

Background

- USAF CONOPs lead in watershed Airborne Electronic Attack follow-on study to the EA-6B (AEA AoA). Advocated System of Systems approach ultimately adopted as DoD recommendation
- HQ ACC Requirements and USAF Weapons School Instructor experience. Fingerprints on all ACC EW/LO programs: B-52 Electronic Attack (SOJS), JUCAS, Compass Call with SPEAR, F/A-22 & F-35 EA, MALD, MALD-J, AT-3 & HTS R-7, HARM
- Full effects based “kinetic & non-kinetic” attack and IO as seasoned EA-6B, F-111 and EC-130H Compass Call aviators. Full spectrum operations including SOF: Iraq, Serbia, Afghanistan, Asia
